EDUCATION

University of Engineering & Technology

Bachelor of Science in Computer Science

Lahore, PK

Dec 2022 – June 2026

Forman Christian College & Chartered University

High School Diploma / FSc in Pre Engineering

Lahore, PK

Oct 2020 – May 2022

EXPERIENCE

Software Engineer Intern

June 2025 – Aug 2025

Direct Financial Network Company (DirectFN)

Lahore, PK

- Assisted in developing and maintaining enterprise FinTech applications such as EdaaConnect and Alfalah Investments using React and ASP.NET.
- Collaborated with senior engineers to implement UI components and backend logic, ensuring alignment with project requirements.
- Gained hands-on experience in the software development life cycle (SDLC) within a professional fintech environment.
- Participated in code reviews and team sprints to improve application performance and resolve technical debt.

PROJECTS

OneUni | ASP.NET, PostgreSQL, EF Core, Google OAuth, CI/CD, Azure, GitHub Actions

June 2025 – Present

GitHub: github.com/abdull-ah-med/OneUniBackend

Live: oneversity.net | **API:** api.oneuniversity.net

- Developing a RESTful API using ASP.NET Core with Repository and Unit of Work patterns for scalable data access.
- Secured platform with JWT authentication, refresh token rotation, and double-submit cookie CSRF/XSS protection.
- Integrated Google OAuth 2.0 and email/password login via a seamless two-step signup flow.
- Managed Azure App Service with CI/CD using Github actions, PostgreSQL database instances, and custom domains management.

Formai | React, Typescript, Node.js, MongoDB, Anthropic, Vercel, Railway, Google OAuth

June 2025 – Aug 2025

GitHub: github.com/abdull-ah-med/Formai

Live: formai-frontend-one.vercel.app

- Developed a full-stack web application using React for frontend with Node.js in backend and Express.js for middleware
- Integrated Google OAuth and Google Drive API for automated, one-click form saving and management.
- Engineered an AI form generator via Claude API with input sanitization to prevent prompt injections
- Implemented reCaptcha, rate limiting, and daily usage quotas to manage complex form generation.

CERTIFICATIONS & ACTIVITIES

Oracle Cloud Infrastructure Foundations Associate (1Z0-1085-25) | Oracle

2025

McKinsey Forward Program | McKinsey & Company

2024

- Completed intensive training in data-driven problem solving, business storytelling, and professional communication.

President, Formanites Mathematics Society | Forman Christian College

2021 – 2022

- Led post-COVID society revival by organizing regional Math Olympiads and driving digital engagement.
