Education

University of Engineering & Technology
BS Computer Science

Lahore, PK
2022 – 2026

Forman Christian College
Intermediate, Pre-Engineering

Lahore, PK
2020 – 2022

Experience

Direct Financial Network Company (DirectFN)
Software Engineering Intern

Lahore, PK
June 2025 - Current

- Contributed to frontend development for **EdaaConnect**, a Saudi mutual fund investment platform.
- Focused on **responsive UI components** and **real-time data display** using modern frameworks.
- Ensured **multi-language** and **mobile-friendly** design compatibility (Arabic/English, dark/light mode).

Projects

Formai, AI powered form builder

July, 2025

<https://formai-frontend-one.vercel.app/>

- Developed a full-stack MERN application with TypeScript for AI-powered form generation.
- Integrated a third-party AI to create web forms from natural language prompts.
- Implemented secure RESTful APIs with JWT authentication and Google OAuth 2.0.
- Built a responsive, modern UI with React, Vite, and Tailwind CSS.
- Deployed a secure, performance-optimized application featuring rate limiting and reCAPTCHA.

Leadership and Activities

Formanites Mathematics Society
President

Lahore, PK
2021 – 2022

- Revived society engagement post-COVID by organizing talks, info sessions, and boosting social media presence.
- Hosted math Olympiads and quiz competitions for regional participation.

McKinsey Forward Program

2024

- Enhanced problem-solving abilities with real-world business case studies.
- Strengthened communication through storytelling and presentation modules.
